**CHART OF CASES STAYED OR DISMISSED
AFTER CERTIFICATION IN *DOES II***

Cases Stayed or Dismissed After Certification in *Does II*

This chart provides examples of cases challenging the prior version of Michigan's Sex Offenders Registration Act that were stayed or dismissed while the certified class litigated *Does v. Snyder (Does II)*, No. 16-cv-13137 (E.D. Mich.). The chart also shows whether the stayed or dismissed case had named defendants other than the governor and Michigan State Police director (who were the defendants named in *Does II*). In addition, the chart shows if the plaintiffs brought any claims other than those raised in *Does II*. This sampling of cases is only intended to be representative and is not an exhaustive list of cases that were stayed or dismissed in light of *Does II*.
